

CASE STUDY HYBRID INSULATION

THREE STOREY HOUSE

CANTERBURY

PRODUCTS USED

- Hybris 90mm
- HControl Hybrid
- Boost'R Hybrid

**U-VALUE
ACHIEVED 0.14**

“I was stunned at just how quickly the property warms up and how well the heat was retained.”

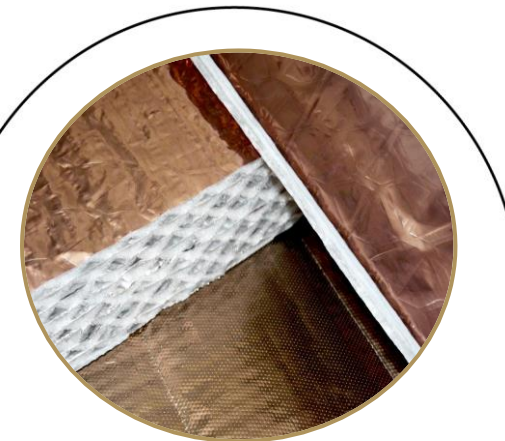

“Because of the low U-values achieved I decided that gas central heating is not necessary.”

SELF BUILD ACHIEVES U-VALUE OF 0.14 THANKS TO ACTIS HYBRID RANGE

Simon Day is building a 120sqm three storey house in Canterbury whose overall U-value will be 0.14 in both the walls and roof.

Simon has installed all three products from the dual tested ACTIS Hybrid range which was designed with the specific aim of addressing the DECC recognised performance gap.
