SUPER THERMAL ECOPOD

PODLIVING

PRODUCTS USED

Floor and Ceiling

- 195mm Hybris
- HControl Hybrid

Walls

- 75mm Hybris
- HControl Hybrid

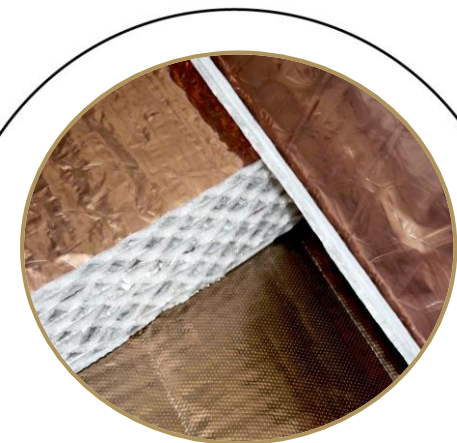

THERMAL EFFICIENCY ACHIEVED/ANTICIPATED
A+ EPC and Minus Zero Carbon rating.

THERMAL EFFICIENCY AND EASE OF USE TEMPT ECO POD SPECIALIST TO SWITCH TO ACTIS HYBRID

Lancashire-based Pod Living Ltd specialises in designer eco-friendly buildings for schools and hotels and, having trialled the hybrid range on a 100m² outdoor education centre in a park in Lytham St Annes, has decided to use the system in all its ongoing projects.

“We were so impressed by the performance, not to mention how quick and easy it was to use. We’ll use it from now on in all our pods as it is better, lighter and cheaper than the alternatives,” said MD Nick Clegg.
