WINDY HOUSE BY THE SEA

ISLE OF WIGHT

PRODUCTS USED

- 120mm Hybris in timber frame wall
- 240mm Hybris in pitched roof
- HControl Hybrid

ISLE OF WIGHT SELF BUILDER FUTURE PROOFS HIS HOME WITH ACTIS HYBRID

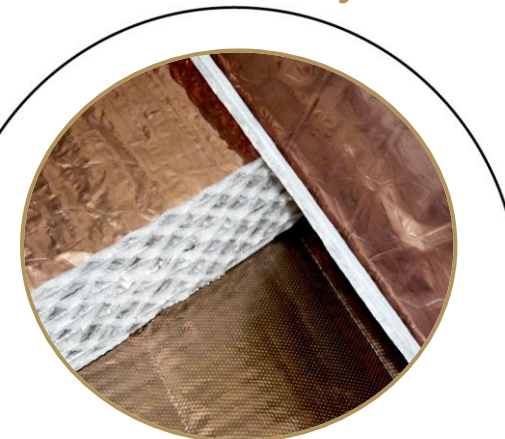

Protecting his purse from utility companies was the prime driver behind the decision of an Isle of Wight boat builder to super-insulate his new build home by the sea.

“The insulation is phenomenal.

It’s by far and away superior to anything I’ve ever used”.

“Air tightness is crucial. It doesn't matter how good you are with a saw, you'll never get a proper fit with insulation board. ACTIS expands itself into a void and the 'blanket' layer is belt and braces”.
