

# CASE STUDY HYBRID INSULATION

## TIMBER FRAMED HOUSES

### SCANDIA-HUS

#### PRODUCTS USED

##### Roof

- 150mm Hybris
- HControl Hybrid

**U-VALUE = 0.14**

##### Wall

- 105mm Hybris
- HControl Hybrid

**U-VALUE = 0.16**

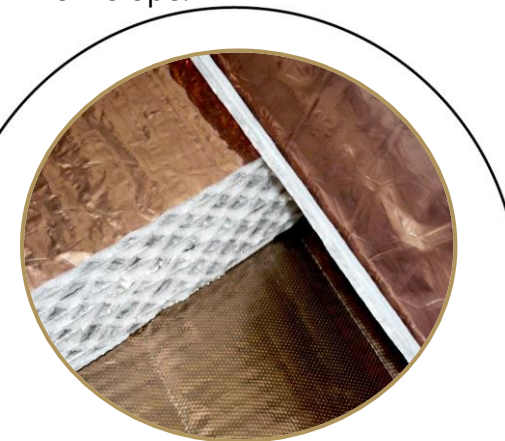

#### TIMBER FRAMER CHOOSE ACTIS HYBRID AFTER THERMAL IMAGING TEST SUCCESS

Scandia-Hus, which has built around 4,000 homes across the UK, recently installed two products from the ACTIS Hybrid range in one of its three bedroom show homes and carried out a thermal imaging study before deciding whether to switch to using the system in most of their properties.

As the ACTIS Hybrid products are flexible they can be squashed into and bent around corners to eliminate the bridging issues and thus ensure an airtight envelope.

**“Using traditional insulation products to achieve these improvements would have resulted in greater wall thickness, large increases in material costs and more labour”. Scandia-Hus MD**

## ACTIS

TOMORROW'S INSULATION TODAY

ACTIS INSULATION LTD. Unit 1 Cornbrash Park - Bumpers Way  
Bumpers Farm Industrial Estate - Chippenham Wiltshire - SN14 6RA
